

The Body Aura measured by Dowsing (Ken doing the measuring with one L rod)

Mike inside a building as the subject

Without a hat	1.7m (67")
With a hat	5.92m (233")

Mike outside in the Sun as the subject

Without a hat	3.45m (136")
With a hat	4.95m (195")

Geoff inside a building as the subject

Without a hat	1.88m (74")
With a hat	5.25m (207")

Geoff outside in the Sun as the subject

Without a hat	2.23m (88")
With a hat	5.97m (235")

Ken then Dowsed Mike while wearing the hat

Inside a building	7.52m (296")
Outside in the Sun	9.37m (369")

We then changed the experiment slightly by changing the question (see website article) Ken had worn the hat for several minutes by now and continued to wear it while dowsing we used Mike as the subject.

Outside in the Sun Aura field to Aura field	10.61m (418")
Outside in the Sun, Kens foot to Mikes Aura field	3.05m (120")
