

# ENERGY VIEWING WORKSHOP

Saturday 14<sup>th</sup> November 2015

09.00 – 13.00 Durrington, West Sussex

LEARN A DIFFERENT WAY OF SEEING

IF YOU FEEL LIKE THIS AND WANT TO FEEL LIKE THIS

With your eyes closed and a light mental shift you can see energy. The dark blue you see is the back ground energy to everything in harmony. The other colors are disturbances and can be anything from a headache or an emotional issue to a broken toe. A slight shift and you can see energy features that enable mediumship or astral travel – remote viewing, the latter seems to have a connection to depression and that spot under the right shoulder blade. A small jump out of body and you can see the energy that creates crop circles and causes trees to twist or look inside trees to the energy within, or the energy orb of someone else who is enjoying the experience. This workshop shows you how to change from eyes to third eye. How to focus to where you want to view and help you understand the energy colors you see, in yourself and others.

Cost £40.00 25% discount to those who have been to an E.V. workshop before.
